

This could be something  
And that makes me nervous  
But when we're together  
I think that we're perfect  
Isn't it?  
Really hope I'm not overthinking it

You say I'm pretty  
And I don't believe you  
But you reassure me  
When I think it's not true  
It's definite  
Me and you are made to be more than friends

And I  
Wish that we'd say it  
But scared it will change us  
And I  
I'll say it first if you do

I, I, I love you  
Do you love me too?  
Know that you want to  
Let's say it together, yeah  
I love you

I love you

Say it together, yeah  
I love you

Tell me the truth  
Are we friends or we dating?  
'Cause all your good mornings got me captivated  
Do you mean it?  
Am I just another girl on your playlist? Oh

And I  
Wish that we'd say it  
But scared it will change us  
And I  
I'll say it first if you do

I, I, I love you  
Do you love me too?  
Know that you want to  
Let's say it together, yeah  
I love you

I love you

Say it together, yeah  
I love you

This distance between us  
Is making it hard to tell  
So say that you mean it

I, I, I love you  
Do you love me too?  
Know that you want to  
Let's say it together, yeah  
I love you

I love you

Say it together, yeah  
I love you
