One Time We Lived

Laurent Wolf

One time we lived
Like the time would never leave
What time we had
The luxury to breathe
I couldn't see an end
There was no end in sight
Time has risen up time has pulled us down
Bringing darkness to the light

I remember the way you looked
The sun had set
The lights were down
I remember the light in your eyes
Do you remember at all?
Do you remember at all?

Isn't that what we wanted?
Isn't that what we wanted?
isn't that what we had?
Do we know what we need?
Now that its gone anekatips.com
Isn't that what we wanted?
Isn't that what we wanted?
isn't that what we had?
Do we know what we need?

One time we lived
Like the time would never end
And now it breaks
Those left alone again
And while the waters course
By the old and pale light
See just what I've lost
And die into the night

I remember the way you looked
The sun had set
The lights were down
I remember the light in your eyes
Do you remember at all?
Do you remember at all?

Isn't that what we wanted?
Isn't that what we wanted?
isn't that what we had?
Do we know what we need?
Now that its gone

Isn't that what we wanted?
Isn't that what we wanted?
isn't that what we had?
Do we know what we need?
Now that its gone
