

Cozy

Lauv

Said I'm into you
But you already knew

By the way you touched my hair
Like your hands always been there

So I dropped my guard
And it hit real hard
Couldn't even make sound
Felt the whole world slowing down

But when you kiss me
It's so cozy
And I don't know what it is
It's like you know me
And there's a
Thousand reason why
We should stop and say goodnight
But I don't care
Cuz you're so damn
Cozy

There's a universe
Where we both get hurt
But in this reality
We'll just have to wait and see
I don't ever see you wanna see you cry

I don't wanna have to say goodbye
I don't ever wanna have to choose
Between having us and losing you

You kiss me
It's so cozy
And I don't know what it is
It's like you know me but
There's a thousand reasons why
We should stop and say goodnight
But I don't care
Cuz you're so damn
Cozy

When you hold me
You're so cozy
When you hold me
You're so cozy
When you hold me
You're so cozy
When you hold me
You're so cozy

But when you kiss me
It's so cozy
And I don't know what it is
It's like you know me
And there's a
Thousand reasons why

We should stop and say goodnight
But I don't care
Cuz youre so damn
Cozy
