

# Summer Nights

Lauv

Tell me something, baby  
Do you still hate me?  
'Cause I know it's been a while  
But I'm drunk and I wanna say something crazy  
Yeah, I know we tried a thousand times before  
But I wanna know  
Will you come with me?  
So will you come with me? Yeah

Back to summer nights, you and I  
Way before we were real lovers, yeah  
Candlelight dinner plates before we really knew each other  
Summer time past, I think we lost our way, ay  
Can we get back to summer nights way before  
You and I  
You and I  
Before you and I hurt each other?

I know the cost of my actions  
Baby, I won't lie  
You know the cost of giving this one more try

I know it's hard for you  
You know it's hard for me  
Baby, don't back down  
We got a chance to make, make it last this time

Can we go back to  
Summer nights, you and I  
Way before we were real lovers, yeah  
Candlelight dinner plates before we really knew each other  
Summer time past, I think we lost our way, ay  
Can we get back to summer nights way before  
You and I  
You and I  
Before you and I hurt each other?

Before you and I hurt each other  
Before you and I hurt each other
