

## Time After Time

Lauv

You broke my heart a thousand times  
But I'm not bleeding  
And then you gave me one more night  
To believe in

In your eyes  
I see love in all the darkest paradise, paradise  
Cold as ice  
When you're mean to me, girl it's so hard  
Good God

I could fall in love with you  
Time after, time after, time after time, ooh  
I could fall in love you  
Life after, life after, life after life, ooh

'Cause baby when you leave  
I lose my mind  
Yeah, in the morning, afternoon and in the middle of the night

I could fall in love with you  
Time after, time after, time after time, ooh  
I could fall in love

I've tasted poison from your lips  
There's nothing sweeter  
But then you act so innocent  
So I fall deeper

In your eyes  
I see love in all the darkest paradise, paradise  
Cold as ice  
When you're mean to me, girl it's so hard  
Good God

I could fall in love with you  
Time after, time after, time after time, ooh  
I could fall in love you  
Life after, life after, life after life, ooh

'Cause baby when you leave  
I lose my mind  
Yeah, in the morning, afternoon and in the middle of the night

I could fall in love with you  
Time after, time after, time after time, ooh  
I could fall in love
