

## Lots And Lots Of Love

LaVern Baker

I've got lots and lots and lots of love for you  
I've got lots and lots and lots of love for you  
I've got loads of love from Heaven above  
I'm gonna spread it on the one I love  
I've got lots and lots and lots of love for you

I'm gonna spread, spread, spread it all around  
I'm gonna spread, spread, spread it all around  
I'm gonna spread it out, I'm gonna spread it down  
I'm gonna spread it all around the town  
I've got lots and lots and lots of love for you

I'll never make you angry  
I'll never make you blue  
I'll always keep you happy  
With a love that's sweet and true

[Saxophone Solo]

I'll never make you angry  
I'll never make you blue  
I'll always keep you happy  
With a love that's sweet and true

I've got lots and lots and lots of love for you  
I've got lots and lots and lots of love for you  
I've got loads of love from Heaven above  
I'm gonna spread it on the one I love  
I've got lots and lots and lots of love for you

For you  
Uh, for you  
No one else but  
Hah, for you  
Only you
