

# Adrenaline

Lawson

Oh, I love it when you call  
No, I just can't turn it off  
'Cause I need you, babe  
(I need you, babe)  
Losing track of where we are  
In the backseat of your car  
California waves  
(You say my name)

Got those blue jeans faded  
Hit, we're wasted on your love  
(Can't get enough)

I don't need to get drunk at the weekend  
Or get high with my best friends  
Baby, you're my adrenaline  
It's how I feel when I'm with you  
Dive in to the deep end  
Get lost in the moment  
Baby, you're my adrenaline  
It's how I feel when I'm with you

Girl, your kiss is supersonic  
Every sound you make, I want it  
Made my head spin  
As I breathe you in  
Tonight, the sky looks like it's ours  
Wanna dive in to your arms  
Free falling  
I'm all in

Feel like we're high-speed chasing  
Heartbeat racing  
Body shaking  
(I got you so I don't need to)

Get drunk at the weekend  
Or get high with my best friends  
Baby, you're my adrenaline  
It's how I feel when I'm with you  
Dive in to the deep end  
Get lost in the moment  
Baby, you're my adrenaline  
It's how I feel when I'm with you

Sober, but I'm so high

It's how I feel when I'm with you  
Feel the rush, come alive  
I could stay up all night

I don't need to get drunk at the weekend  
Or get high with my best friends  
Baby, you're my adrenaline  
Dive in to the deep end  
Get lost in the moment  
Baby, you're my adrenaline

(I got you so I don't need to)

Get drunk at the weekend  
Or get high with my best friends  
Baby, you're my adrenaline  
It's how I feel when I'm with you  
Dive in to the deep end  
Get lost in the moment  
Baby, you're my adrenaline  
It's how I feel when I'm with you

Sober, but I'm so high (Adrenaline, adrenaline)  
(Adrenaline, adrenaline)  
[?] (Adrenaline, adrenaline)  
It's how I feel when I'm with you  
Feel the rush, come alive (Adrenaline, adrenaline)  
(Adrenaline, adrenaline)  
I could stay up all night (Adrenaline, adrenaline)  
It's how I feel when I'm with you
