

# Animals

Lawson

Endless conversation  
It's all we've got for now  
High on your temptation  
Hate it when I come down

I drive for a minute  
Lie to myself I don't need you  
If skies were the limit  
I'd fly to the moon to be near you

Giving it up  
Is just impossible  
This kind of love  
It feels unstoppable  
Shot in the dark  
And we can have it all  
Straight from the heart  
It's not just physical

My imagination  
Is playing tricks on me  
Why the hesitation?  
Baby, you're the fix I need

Hours turn to minutes  
Lost when I'm looking in your eyes  
This could be heaven  
There's nothing better, take me to paradise

Giving it up  
Is just impossible  
This kind of love  
It feels unstoppable  
Shot in the dark  
And we can have it all  
Straight from the heart  
It's not just physical

I can't take this anymore  
Baby, we're just animals  
I can't take this anymore  
Baby, we're just animals

Giving it up  
Is just impossible  
This kind of love  
It feels unstoppable  
Shot in the dark  
And we can have it all  
Straight from the heart  
It's not just physical

Giving it up  
Is just impossible  
This kind of love  
It feels unstoppable  
Shot in the dark

And we can have it all  
Straight from the heart  
It's not just physical

I can't take this anymore  
Baby, we're just animals  
I can't take this anymore  
Baby, we're just animals
