

Mountains

Lawson

Just like stars shipped set to collided
You and i were meant to align
And we leave in and awake the belief in a fate
that we've seen for a thousand miles
Even if we think we are gonna crash
See our revolution turn to ash
We'll be strong for each other
Trust one and other
You don't have to be afraid

Because
My love

We can move mountains, mountains
We can make change
Walk through fire
Heal the worlds pain
Find redemption
Take away blame

We can move mountains, mountains
Covered in gold
Walk the ocean
Feel a black hole
Building an empire
Watch it explode

We changed in the blink of an eye
New roads to a brand new trial
And a chance to be free just the way we believe
Make the most of a broken smile
Can you see the wind blowing through the trees
I can hear a whisper in the breeze
Were saying help one and other
Fight for each other
We will live another day

Because
My love

We can move mountains, mountains
We can make change
Walk through fire
Heal the worlds pain
Find redemption
Take away blame

We can move mountains, mountains
Covered in gold
Walk the ocean
Feel a black hole
Building an empire
Watch it explode

After all the pain
After all the flames
I can feel innocence, hasn't gone away

Just give me all you got
Give me one more day
We will find
We can move mountains, mountains
We can make change
Walk through fire
Heal the worlds pain
Find redemption
Take away blame

We can move mountains, mountains
We can make change
Walk through fire
Heal the worlds pain
Find redemption
Take away blame

We can move mountains, mountains
Covered in gold
Walk the ocean
Feel a black hole
Building an empire
Watch it explode
