

Used to Be Us

Lawson

We were like kings of the universe
Leaders of men in an open world
Holding out head up towards the sun
Fighting our wars with the best outcome

We'd seize the day
We'd never change

God's standing ten feet tall
This is our curtain call
We did it the best way
They were the good days
We had it all
We're told to live our dreams
No plans or strict regimes
Living was easy
Without a meaning
That used to be us
Used to be us, used to be us
Used to be us, used to be us

We were the guides of our own journey
Seeking the parts of our destiny
There's nobody thing to hold us back
Top of the world we won't break the pack

We'd seize the day
We'd never change

God's standing ten feet tall
This is our curtain call
We did it the best way
They were the good days
We had it all
We're told to live our dreams
No plans or strict regimes
Living was easy
Without a meaning
That used to be us
Used to be us, used to be us
Used to be us, used to be us

We were so high when it used to be us
Never lost time when it used to be us
We were so high when it used to be us
It used to be us

God's standing ten feet tall
This is our curtain call
We did it the best way
They were the good days
We had it all
We're told to live our dreams
No plans or strict regimes
Living was easy
Without a meaning
That used to be us

Used to be us, used to be us
Used to be us, used to be us

That used to be us
Used to be us

We were so high when it used to be us
Never lost time when it used to be us
We were so high when it used to be us
It used to be us
