

## Be A Thing

Lawsy

Uh, Lawsy, pick up!

So can you roll me, can you vibe with me  
So can you get in this bed and can you ride on me  
Can you smoke with me, can you get high with me?  
And you too old for me, but I know we could still be a thing

I could buy you a ring, I could help you with your dreams  
You don't need to work no more, baby I got everything you need  
For dem percocets, she a fiend, told her my age, she couldn't b  
elieve

Baby let me hit it once, cause after we fuck, I know you won't  
leave

Don't leave, baby you can stay the night, I'm tryna be fuckin'  
all day and night

She ain't know that it could feel this right, she can't wait 't  
il I'm in LA to slide

When you in my arms, the only time it feel alright

When off dem bars only time this shit feel right

Without you baby, without you baby

I need you, baby, so come through, baby

Anything you tryna do baby, I wanna do it with you baby

I'm tryna fuck up on yo boobs baby, I know that you wanna be my  
boo baby

Lawsy, pick up!

So can you roll with me, can you vibe with me  
So can you get in this bed and can you ride on me  
Can you smoke with me, can you get high with me?  
And you too old for me, but I know we could still be a thing

So can you roll with me, can you vibe with me  
So can you get in this bed and can you ride on me  
Can you smoke with me, can you get high with me?  
And you too old for me, but I know we could still be a thing

Still be a thing
