

What's left of me  
I gave my heart to you  
There's nothing left to save  
When the shit you said felt like  
Bullets through my chest  
What's left of me  
Ain't got no feeling  
Novocain up in my veins  
I'mma be okay  
Just double it  
Double it  
Double the dose til' the pain go away  
Double it  
Double it  
Double it till I can't feel myself  
What's left of me  
Ain't got no feeling  
Novocain up in my veins  
I'mma be okay without you

Close my eyes then I'm going numb  
I've been trying to stay afloat  
You put this baggage on me  
Now that shit weighing me down  
I still hoped you come around  
No you ain't and I been knew  
You bet' not tell them the shit that we've been through  
If you switch sides then you know I'mma spin you, bitch  
And whenever I get this high  
Me and you come across my mind  
And all the things that I feel inside  
Still here cuz' I can't go nowhere  
Then I fell light this spliff then I inhaled  
This the best I ever felt  
Gotta keep this to myself (uh)

What's left of me  
I gave my heart to you  
There's nothing left to save  
When the shit you said felt like  
Bullets through my chest  
What's left of me  
Ain't got no feeling  
Novocain up in my veins  
I'mma be okay  
Just double it  
Double it  
Double the dose til' the pain go away  
Double it  
Double it  
Double it till I can't feel myself  
What's left of me  
Ain't got no feeling  
Novocain up in my veins  
I'mma be okay without you
