

I Love You

Layton Greene

Under the impression you was feeling me
Under the impression you was real with me
Was it all a lie, was it a just fantasy
You control my mind, was you just using me

I can't believe you saying you can't be with me
I was there when you had nothing on your knees
If I would try to leave I had you begging "please"
Let me ease my mind before I cause a scene

All these crazy thoughts can't get em out my head
I keep wondering who you got in your bed
You so real but how the fuck was I mislead
Had me thinking it was gonna be me instead

I can't see you with nobody else
Don't want you with nobody else, no
Can't you see with nobody else
I just want you to myself

'Cause I love ya, I love ya, I love ya
I love ya, I love ya, I love ya
(Oh, I love ya) Yeah, I love ya
(I love ya) Yeah, I love ya
(I love ya)

She ain't gon' love you like I love you, nah
She ain't gon' touch you like I touch you, nah
She ain't gon' do the things I do for you
You think you good but you gon' find out soon

It hurts to know I can't get what I want
You know I'd give up everything I own baby
Just to be with you
Always real with you
You know that there ain't nothing I won't do for you

All these crazy thoughts can't get em out my head
I keep wondering who you got in your bed
You so real but how the fuck was I mislead
Had me thinking it was gonna be me instead

But I can't see you with nobody else
Don't want you with nobody else, no
I can't you see with nobody else
I just want you to myself

'Cause I love ya, I love ya, I love ya
I love ya, I love ya, I love ya
(Oh, I love ya) Yeah, I love ya
(I love ya) Yeah, I love ya

Seems like it was just yesterday
When you couldn't even be away
So why didn't you wait for me
You said I had your heart, ain't no replacing me

Don't know what I'ma do
Been going through the motions
I just can't believe it's true
So what the fuck am I gon' do?
You know I only wanted you

All these crazy thoughts can't get em out my head
I keep wondering who you got in your bed
You so real but how the fuck was I mislead
Had me thinking it was gonna be me instead

Don't want you with nobody else
I can't see you with nobody else
