

1 Line

LAZER DIM 700

Yeah...

One line, that's all it take

Lazer... Dim... Seven double O... huh

One line turn a opp to a pack

One line make a call, no cap

One line get a drop, it's a wrap

Send bro to the spot, all black in the back

One line turn the calm to the storm

One step in, now the scene transform

Don't blink, one shot, no warn

Ain't no peace when the rage get born

One line - that's all I send

Whole squad pull up, not just one friend

One line - I don't need to pretend

Say my name once, it's your story's end

One line - better watch that talk

You don't want smoke when the demon walk

One line - no time for chalk

Leave the whole block in a blackout shock

I ain't into threats, I just move in silence

One line, now the whole strip in sirens

One line, now your whole plan dyin'

One line, turn your big dog to cryin'

Keep one clip in the coat, just in case

One line drop, and I won't leave trace

I don't flex much, I just state my place

But one line flip the whole damn race

One text - they outside your flat

One call - and you can't call back

One move - now your bro got tagged

One line, now your life's off track

One line - that's all I send

Whole squad pull up, not just one friend

One line - I don't need to pretend

Say my name once, it's your story's end

One line - better watch that talk

You don't want smoke when the demon walk

One line - no time for chalk

Leave the whole block in a blackout shock

One line, I ain't gotta repeat

One line, and we out in the street

One line, yeah the message complete

Lazer Dim - this drill too deep
