

WHICH WAY

LAZER DIM 700

Frirt, frirt, frirt, frirt, frirt, frirt
He put his shiesty on—
He put his shiesty and visit the dark

Hit it out the park, he take shit too far
Showed me ARP, he got a new scar
Lil' buddy walked me to the place, it's too far
Opps switched the destination, they too far
Turn on yo' location, got on yo' armory
Everytime I get the song crazy, they scarin' me
Switch the location, they know I'ma block they ass
Twelve be hot, I'm surprised they ain't fuck with me
Feel like [?], now you really abductin' me
Hollow tips, opps be duckin' these
Get out from twelve, they know ain't no searchin' me
Too many fires, this a Glock anniversary
Married to the artillery, I have it
See the snakes and I push [?] and glasses
Maybach the scat, [?] wanna be
Step on a opp, now the opps, they under me
Shoot your shots and die if you tryn' come for me
Knew she was cryin', which one she was workin'
Better not try set up, love gang 'til her better
Come down the road while your whip get wetter
Opp tryna quit, told the opp that it's game over
Gen5 behind her, I ain't switchin' my name over
Push up wiggin', nigga, shoot at yo' [?]
He was too spooked, he done changed his gang over
I cap to twelve, I gave 'em a fake name
Middle of the mall, you got you a fake chain
Sat down, ain't playin' with you, I'm searchin' for the whole thing
Everybody hot, I can bring the whole gang
Too many hoes, I forgot the hoes name
Nigga havin' 'za, that not propane
Two sticks in the bag, they come from Spain
Cap to the ho, she think she my main
God forbid but I know you gon' change
Flood the bag, I'ma make more if you give it to me
Drop the lo' plug, be spookin', that shit be to me
I thought this shit was in [?]
You my sneaky link, li' twin see the number issue
Hella money on [?], I throw in my gloves
Stayin' in my hood, I won't stay in not no club
Cap for this ho, now she think I'm in love
Twin shootin', they thought I was shootin'
Take a opp, glizzy clip removin'
Twin tweakin' 'cause I told him "Lose it"
