

Boom

Le Butcherettes

You fully stood as time moved on
Unhinged from fatherhood
Mortality moved in next door
Heck, right on Rick's carpet floor
Yet still you stood silent all these years
Fatherhood
Yet still you stood silent all these years
Fatherhood

Push it in, empty out
Leningrad's tomorrow
Watch him stand up
(Oh shit)

Do what they say, hell on you
It makes me want to
Boom boom boom boooooom

They've taken her away from us
They've taken her again
While waiting on the lobby hall
Never to hear from her again

They've taken her away from us
They've taken her again
While waiting on the lobby hall
Never to hear of her again

They've taken her away from us
They've taken her again
While waiting on the lobby hall
Never to hear of her again

Push it in, empty out
Leningrad's tomorrow
Watch him stand

Do what they say, hell on you
It makes me want to
Boom boom boom boooooom

Push it in, empty out
Leningrad's tomorrow
Watch him stand

Do what they say, hell on you
It makes me want to
Boom boom boom boooooom
