

My mother holds my new born child
She's covered in tape

Still-born asthma
She whimpers as they hold her
The coughing ensues

So give me milk without any panic attacks
So give me milk without any panic
Many panic, any panic?

Mother holds my only life line
Mother holds my only life line
Mother holds my only life line
Won't you take her away?
Place her under the flat-line!

My triumph holds my only life line
This marrow has doubt

Asphalt liar
I keep on falling flat faced
I'm simmered in mud

So give me milk without any panic attacks
So give me milk without any panic
Many panic, any panic?

Mother holds my only life line
Mother holds my only life line
Mother holds my only life line
Won't you take her away?
Place her under the flat-line!

She was a spider while roaming the streets
Won't you have mercy on me?
Once was a tiger hunting Poseidon
Won't you have pity on me?

Mother holds my only life line
Mother holds my only life line
Mother holds my only life line
Won't you take her away?
Place her under the flat-line!

Mother holds my only life line
Mother holds my only life line
Mother holds my only life line
Won't you take her away?
Place her under the flat-line!
