

Back Around

Le Youth

I go outside for peace of mind
I go wandering to save face
I won't outline the reasons why
Just to say that you might be involved

I'm not sure that you realise
There's a tension between us
I'm not sure I can keep it quiet
I'm not sure I can ignore

You've done something, done something
You wouldn't recognise
I keep coming, keep coming
Keep coming back around

You've done something, done something
You've got me paralysed
I keep coming, keep coming
Keep coming back around

Coming back around, coming back around
I am in trouble cause you
Coming back around, coming back around

The things you make me do

Coming back around, coming back around
I am in trouble cause you
Coming back around, coming back around
The things you make me do

I am in trouble cause you
Coming back around
