

Hold me now
I know my love's been hard to find
Take me down
And this fire won't burn out tonight

If you wanna go
While I'm waiting to forget
Something in me knows
This is the best it gets

I'm on the edge about to fall, but I don't see it
I should be scared to lose it all, but I don't feel it
Why does it hurt, they're only words until we mean it?
I wanna know that I can break so I can feel it
But I'm still healing

But I'm still healing

Hold me now
I know my love's been hard to find
Take me down
And this fire won't burn out tonight

If you wanna go
While I'm waiting to forget
Something in me knows
This is the best it gets

I'm on the edge about to fall, but I don't see it
I should be scared to lose it all, but I don't feel it
Why does it hurt, they're only words until we mean it?
I wanna know that I can break so I can feel it
But I'm still healing

(Still healing from this feeling of emptiness)
(Still healing from this pain I'm not over yet)
But I'm still healing
(Still healing from this feeling of emptiness)
(Still healing from this pain I'm not over yet)
But I'm still healing
(Still healing from this feeling of emptiness)
(Still healing from this pain I'm not over yet)
But I'm still healing
