

Even Then

Lea Michele

Never told you,
But I meant to
Before I could begin.
Even then,
I loved you even then.
See my heart is
Scared of places,
That it's never been.
But even then,
I loved you even then.
If my voice should
Start to tremble,
If I am shaking.
I love you now,
Like I loved you even then.

Even if it's uphill now, even when I can't say how.

See my heart is scared of places that it's never been.

Even when

My heart won't stop pounding.
Even then. [2x]

I'll keep on even then.

I loved you even then.

Even if
It's uphill now,
Even when, there no words how.
When my heart pounds this loud,
Even then.

If I left you,
I never meant to,
And I won't pretend.
Even then,
I loved you even then.

If I just knew
How to show you,
Let me try again.
I love you even now,
Like I loved you even then.
Even then. [2x]
