

911

You're gonna wish I was your spiteful ex  
Who only trashed you on the internet  
You're gonna wish I was a psycho bitch  
When I'm not even stressed  
I forget you exist

You don't know what's coming  
For ya whole life you'll be running for the hills  
Reaching for the pills  
Can't escape the chills  
Forever  
Baby you better call

911

Imma set your heart on fire  
Make it hurt so much - worse than when I slashed your tires  
Seeing me, everywhere is enough  
Knowing I really don't give a fuck  
911 Imma take your blood red lighter  
And Imma set your heart fire

You're gonna wish I went and stole your car  
Went on a bender and then crashed it in the yard  
Scream out the window on your boulevard  
He a dick  
He's a cheat  
Neighbors  
Call the police

Ringin' 911

Imma set your heart on fire  
Make it hurt so much - worse than when I slashed your tires  
Seeing me, everywhere is enough  
Knowing I really don't give a fuck  
911 Imma take your blood red lighter  
And Imma set your heart fire

You don't know what's coming  
For ya whole life you'll be running for the hills  
Reaching for the pills  
Can't escape the chills  
Forever  
Baby you better call

911

Imma set your heart on fire  
Make IT hurt so much - worse than when I slashed your tires  
Seeing me, everywhere is enough  
Knowing I really don't give a fuck  
911 Imma take your blood red lighter  
And Imma set your heart fire
