

Do What I Wanna Do

Leah Kate

We keep on hiding in shadows
'Cause I'm not supposed to be with you
But I kinda like fighting battles
'Cause I know that I'll never lose

Don't wanna skim the surface
Let's jump right in on purpose
'Cause babe, I know we're worth it (W-W-Worth it)
There might be consequences
But we should take our chances
And ease all of the tension, the tension

I'm gonna do what I wanna do
Oh, it's better when I can't stop thinking about ya
I'm thinking about ya
I'll say what I wanna say
Couldn't wait another day
'Cause there's something about ya
I'll do what I wanna do with you

Do with you, you, you
Do what I wanna do with you
Do with you, you, you
Do what I wanna do
Do with you, you, you
Do what I wanna do with you
Do with you, you, you
Do what I wanna do

She said that you were her treasure
That's why you can never be mine
Now I can see through it, it's all been bullshit
So I won't let it change my mind

Yeah, she thinks she owns you
But barely even knows you
She moved onto somebody new (Somebody new)
She saw you maybe one time
But didn't even catch a vibe
So why we gotta say goodbye? Won't say goodbye

I'm gonna do what I wanna do
Oh, it's better when I can't stop thinking about ya
I'm thinking about ya
I'll say what I wanna say
Couldn't wait another day
'Cause there's something about ya
I'll do what I wanna do with you

Do with you, you, you
Do what I wanna do with you
Do with you, you, you
Do what I wanna do
Do with you, you, you
Do what I wanna do with you
Do with you, you, you
Do what I wanna do with you

Do what I wanna
Do what I wanna do
Do what I wanna do with you, oh
I do what I wanna
Do what I wanna do with you
Whoa, ooh

I'm gonna do what I wanna do
Oh, it's better when I can't stop thinking about ya
I'm thinking about ya
I'll say what I wanna say
Couldn't wait another day
'Cause there's something about ya
I'll do what I wanna do with you (Whoa)

Do with you, you, you
Do what I wanna do with you (With you)
Do with you, you, you
Do what I wanna do
I do what I wanna do
Do with you, you, you
Do what I wanna do with you
Do with you, you, you
I do what I wanna do with you
