

# Genius

Leah Kate

Okay  
So, we're talking at the party  
'Til early in the morning  
We got so much in common  
We both think I'm the hottest  
So what is going on, then  
How come the night is stalling  
Why aren't we on the dance floor  
This shit is so uncalled for

Boy it's simple strip me down  
Shut your mouth and kiss me now

I'm into you  
It doesn't take a genius  
Can't you see  
I wanna get indecent  
Like my dress  
Guess what's underneath it  
Ooo  
It doesn't take a genius

You're so hot  
All our chemistry is  
Off the charts  
Are we in agreement  
Leave right now?  
What a good idea  
Ooo  
Baby you're a genius

I don't know  
There's something mesmerizing  
About you that's enticing  
You're covered up in tattoos  
I wanna lick 'em off you  
You haven't made a move yet  
So maybe you're just clueless  
I hope that you're not stupid  
Take me home, let's do this

Boy it's simple strip me down  
Shut your mouth and kiss me now

I'm into you  
It doesn't take a genius  
Can't you see  
I wanna get indecent  
Like my dress  
Guess what underneath it  
Ooo  
It doesn't take a genius

You're so hot  
All our chemistry is  
Off the charts  
Are we in agreement

Leave right now?  
What a good idea  
Ooo  
Baby you're a genius

Ooo  
La la la  
Ooo  
La la la  
Ooo  
La la la  
I think you know I want it bad baby  
Ooo  
La la la  
The song is over call a cab baby
