

I Forgot

Leah Kate

Hey... tomorrow set a reminder to
Stop being such a dumb bitch
Take the trash out, that's a metaphor for you
Guess that makes me a hypocrite

2:32 naked in your bed
Swore I'd never do that shit again

I forgot
I hate you but you're still the one I want
It must of slipped my mind to cut you off
Cuz I said I would forget you but I
I forgot
About every little stupid thing you do
In 2 seconds I'll be running back to you
Cuz I said I would forget you but I
I forgot

Hey... tomorrow set a reminder to
Get a better therapist
Try a 7-day cleanse from boys like you
God why am I such a masochist

Even if it hurts
I love the way it burns
Best I ever had
But you'll always be the worst
Oh that's right
You're here to wreck my life

I forgot
I hate you but you're still the one I want
It must've slipped my mind to cut you off
Cuz I said I would forget you but I
I forgot
Bout every little stupid thing you do
In 2 seconds I'll be running back to you
Cuz I said I would forget you but I
I forgot

I say I'd sober up
Then I take a shot of you
I say I'm over us
Then I'm right on top of you

I forgot
I hate you but you're still the one I want
It must've slipped my mind to cut you off
Cus I said I would forget you but I
I forgot
About every little stupid thing you do
In 2 seconds I'll be running back to you
Cuz I said I would forget you but I
I forgot
