

# Not To Be Dramatic

Leah Kate

You spent your whole night out on airplane mode  
So I spent my whole night in a stranger's clothes  
You know my triggers how I jump the gun  
I swear you do this shit for fun

Not to be dramatic  
When you left it was traumatic  
So I did something erratic  
Cause I don't do well with sadness  
So I might've sent a picture of me lying on his mattress  
To send you in a panic  
I knew you'd have to have it oh

Not to be dramatic  
But I love you  
No I couldn't hate you  
Even though I want to  
I would never put no one above you  
But I'm under him tonight  
I did it outta spite oh

Not to be dramatic  
I just don't know how  
Not to be dramatic  
I can't help myself  
Not to be dramatic  
I just don't know how  
Not to be dramatic  
Not to be dramatic

One up each other til someone gets hurt  
Do something bad and then I make it worse  
But who's to blame if we're just taking turns  
I can't fight the urge

Not to be dramatic  
When you left it was traumatic  
So I did something erratic  
Cause I don't do well with sadness  
So I might've sent a picture of me lying on his mattress  
To send you in a panic  
I knew you'd have to have it oh

Not to be dramatic  
But I love you  
No I couldn't hate you  
Even though I want to  
I would never put no one above you  
But I'm under him tonight  
I did it outta spite oh

Not to be dramatic  
But I love you  
No I couldn't hate you  
Even though I want to  
I would never put no one above you  
But I'm under him tonight

I did it outta spite oh

Not to be dramatic  
I just don't know how  
Not to be dramatic  
I can't help myself  
Not to be dramatic  
I just don't know how  
Not to be dramatic

I can't help myself

Not to be dramatic  
But I love you  
No I couldn't hate you  
Even though I want to  
I would never put no one above you  
But I'm under him tonight  
I did it outta spite oh
