

## Space

Leah Kate

You were you all over me  
Now you're all over us  
Said you need room to breathe  
And you've had enough  
Now you're out a bar  
And you're probably drunk  
Baby it won't be long  
Until you hit me up

Ah then suddenly  
Your ca-ca-calling me  
Middle of night, I'm not by myself  
I met a better you  
He's hotter too  
Well-  
Guess you should've thought of that before  
You left and said you needed...

Space!  
Be careful what you wish for  
What you wish for  
I just let somebody take your  
Place!  
Were kissin on the front porch  
Through the front door  
Oh and he wants anything but  
Space!  
Space!  
Space!  
Oh and he wants anything but  
Oh and he wants anything but

Now he's all over me  
And I'm all over us  
It's getting harder to breathe  
When we're making out

Kinda want you to watch  
Really want you to see  
So I can put you out of your misery

Ah then suddenly  
Your ca-ca-calling me  
Middle of night, I'm not by myself  
I met a better you  
He's hotter too  
Well-  
Guess you should've thought of that before  
You left and said you needed...

Space!  
Be careful what you wish for  
What you wish for  
I just let somebody take your  
Place!  
Were kissin on the front porch  
Through the front door

Oh and he wants anything but  
Space!  
Space!  
Space!  
Oh and he wants anything but  
Oh and he wants anything but

Closer than the make up on me  
Skin to skin all on my body  
Suddenly you're feeling sorry  
It's too late...

Guess you should have thought of that before you left and said you needed-

Space!  
Be careful what you wish for  
What you wish for  
I just let somebody take your  
Place!  
Were kissin on the front porch  
Through the front door  
Oh and he wants anything but  
Space!  
Space!  
Space!  
Oh and he wants anything but  
Oh and he wants anything but  
Space!
