

# Made Man

Leah LaBelle

You were just a bachelor  
Looking for a partner  
She had to be someone who knew how to ride  
You looked up and there I was

I'm not the type to pat myself on the back  
I'm not the type to do that  
But look what you made me do  
Look what I made outta you  
You know I'm not the type to toot my own horn  
But I will on my own song  
'Cause look what you made me do  
Look what I made outta you

You were a boy in love with a girl  
You were impressed by the block  
But I came in and got you the world  
Just like a king, you were all in the mix  
You thought your friends were the shit  
Where were they when the shit wasn't lit  
Nowhere

There I was picking up the pieces  
Look what I did, I made a man outta this  
I made a man outta this  
I made a man outta this  
I made a man outta this

Now I don't mean to sound like  
I don't mean to sound, like you never had potential  
But you know like I know like we know the truth  
I'm the best thing that ever happened to you  
You lucky that I fell in love

I'm not the type to pat myself on the back  
I'm not the type to do that  
But look what you made me do  
Look what I made outta you  
You know I'm not the type to toot my own horn  
But I will on my own song  
'Cause look what you made me do  
Look what I made outta you

You were a boy in love with a girl  
You were impressed by the block  
But I came in and got you the world  
Just like a king, you were all in the mix  
You thought your friends were the shit  
Where were they when the shit wasn't lit  
Nowhere

But there I was picking up the pieces  
Look what I did, I made a man outta this  
I made a man outta this  
I made a man outta this  
I made a man outta this
