Yeah baby
We been driving for a while, and I...
I guess I got a lotta miles in
But all those miles are from you, yeah
I've seen a lot valleys and mountains, yeah
I've seen a lot of falls and fountains, yeah
And no matter the storms we made it through

You want someone to listen, I'm that ear to talk to
You've got somewhere to go, I'm the one to roll to
You want someone to hug you when you know that they care
You want someone to ask and it's always "yeah"
You want someone who know how to cook you a meal
[?] I mean come on keep it real
I'll even give it to you when I don't want to
But you can change my time like a watch can't you

He's my bright fire
Oh yes he is (Mmh, lemme tell ya now)
He's my live wire
Oh yes he is

Hey baby
I can see it in their faces
Err'body thinks we're crazy, yeah
But what am I supposed to do, yeah
This is not a sensation
I've been through all the phases
I gotta say thank you boo, I grew

I'm not tryna share this thing (All the girls know what I'm talking 'bout)
Share this thing (All the girls know what I'm talking 'bout)
Share this thing (All the girls know what I'm talking 'bout)
With you

I'm not tryna share this thing (All the girls know what I'm talking 'bout)
The joy you bring (All the girls know what I'm talking 'bout)
I'm not tryna share this thing
With you (Uh-huh, all the girls know what I'm talking 'bout)

He's my bright fire
Oh yes he is
He's my live wire
Oh yes he is
He took me high
Oh yes he did
So I'm singing out loud
Hoping someone hears

I feel like a 747 baby
A thousand miles to heaven
Please take me high as you can
I hope we never land

I'm not tryna share this thing (Aight mother-, motherfucker)
Share this thing
Share this thing

With you

I'm not tryna share this thing (Aight mother-, motherfucker)
The joy you bring
I'm not tryna share this thing
With you
