

God of Grace  
King of Mercy  
I was shattered  
You remade me

How can I explain  
How much I love your name  
That you would use the fractured pieces of my heart to enter the  
rough

God of grace  
You're the king of mercy  
I was damaged  
You saw beauty

How can I explain  
The wonder of your name  
When I was mourning ruins you were building streets of gold for  
me

My creator  
You cannot deny who you are  
You are faithful  
In the wastelands you flood my heart  
You love deeper than my pain  
So here I find myself again  
In awe of you  
So in awe of you

God of grace  
You're the king of mercy  
Living water  
You sustain me

How can I explain  
The beauty in your name  
That even in my desert you were planting seeds of life again

You breathed life into my dreams when they were dust  
You poured into my foundations all your love  
Through all my pain you kept me breathing  
When I could give you nothing you created Eden
