

Sand

Leah McFall

I've been created, then been redeemed
Now I belong to the Holy one
See how he watches over me
O I belong to the Holy one
I've never known a love that never breaks
That no one could every take, yeah
Caught up in your Holy wonder
I'm alive, alive, alive

Night and day, day and night
You keep on holding on to me
In your mind, in your sight
You keep on holding on to me
When I'm falling like sand
You keep on holding on to me
Not a grain through your hand
You keep on holding on to me

My heart believes I found a saviour
O how he loves me
My heart believes I found a saviour
O how he loves me
My heart believes I found a saviour
O how he loves me
My heart believes I found a saviour
O how he loves me

I've been created, then been redeemed
Now I belong to the Holy Holy one
How he watches over me, yeah
O I belong to the Holy Holy one
I've never known a love that never breaks
That no one could every take, naw naw
Caught up in your Holy wonder
I'm alive, alive...

Night and day, day and night
You keep on holding on to me
In your mind, in your sight
You keep on holding on to me
When I'm falling like sand
You keep on holding on to me
Not a grain through your hand
You keep on holding on to me

(Nothing can take me out of your hand
I will never fall like sand...)
