Somber

Leah McFall

Like a city, never sleeping when you're beside me
Keeping me close till we colour the skyline
Painting the nighttime, don't stay inside my lines

We're dazed when the world is seeming somber
Raining grey, keep us in this slumber
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay

Breathe in this cold air, up on the rooftop we can go there
Where we can spend our time painting the skyline
Colour the night sky, don't stay inside my lines

We're dazed when the world is seeming somber
Raining grey, keep us in this slumber
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay

Like a city, never sleeping when you're beside me
Keeping me close till we colour the skyline
Painting the nighttime, don't stay inside my lines

We're dazed when the world is seeming somber
Raining grey, keep us in this slumber
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
Just chill, I would love for you to stay, stay
We're dazed when the world is seeming somber
Raining grey, keep us in this slumber
