

Burn

Leah Turner

Burned is what I get when my heart don't learn
Trying to hold on but we just take turns
Slamming doors and throwing words that hurt
Like

This is goodbye
My bags are packed
This time I won't be back
But with one look
And one call
You know we both will fall

And we go another round
You're the flame I can't put out
I've been looking for closure all over your lips
But I just keep finding your fingertips
Quiero marcharme lejos
Y termino en tus brazos
It's the push and pull again and I give in
We fight like hell but we love like heaven

Sola, is what I feel
Everytime we say neva
Knowing we both wanna stay foreva
Then you slip out of these jeans
Sayin' words we don't mean like
Yo no puedo dejarte
Todo el mundo es lo que yo quiero darte
And when the sun comes up and the hearts still drunk
Mal idea y seguimos adelante

And we go another round
You're the flame I can't put out
I've been looking for closure all over your lips
But I just keep finding your fingertips
Quiero marcharme lejos
Y termino en tus brazos
It's the push and pull again and I give in
We fight like hell but we love like heaven

We fight like hell but we love like heaven
We fight like hell but we love like heaven

And we go another round
You're the flame I can't put out
I've been looking for closure all over your lips
But I just keep finding your fingertips
Quiero marcharme lejos
Y termino en tus brazos
It's the push and pull again and I give in
We fight like hell but we love like heaven
