

Upon Your Destiny

Leah

Shine on, and leave fear behind
In all your ways, believe inside
Stay the path, don't veer to the right
Following these words tonight
Following tonight

I will never leave you or forsake you in the darkness
I will shine the light upon your destiny

Be still and breathe in the light
And all your days, sanctified
Take joy and laugh, treasure the time
Following these words tonight
Following tonight

I will never leave you or forsake you in the darkness
I will shine the light upon your destiny

I will never leave you or forsake you in the darkness
I will shine the light upon your destiny

Turn your eyes up to the heavens
Look upon the glorious face
History now and forever changed
