

Share My Love

LeAnn Rimes

We'll always be together
We'll make it through until the end
And I will always love you
And we will be much more than friends
I'll build my life around you
And I'll do anything for you
No walls will bind around us
And show the world our love is true
Share my love with you my darling together
Let the love shine between us forever.
You came along when I was down
And lifted me up to higher ground
You gave me strength to live each moment
And fill my world with the brightest thing.
Share my love with you my darling together
Let the love shine between us forever
Our love will shine forever
We'll turn the darkness into day
Love will bind us together
To make our world a brighter place.
Share my love with you my darling together
Let the love shine between us forever
Share my love
Let the love shine between us forever
Share my love with you my darling together.
