

No, I never felt like I belonged here
This world wasn't quite ready for me
Whoever's out there in the stratosphere
Got a question for the cosmic engineer
Is it all You believed it would be?

Hey God
Why don't You take me home?
Beam me up
I got a ticket to board
Yeah, You know I'm coming home anyway
So, we might as well blast off today, for fun
I'm waiting on my spaceship to come

How much pain can we bear being human?
I'm pretty sure that my mission is done here
How much more yeah do You want from me?
Haven't I earned the right to be a nominee?
To float out past the Pleiades
Oh, no, You can't be that hard to please

Hey God
Why don't You take me home?
Beam me up
I got a ticket to board
Yeah, You know I'm coming home anyway
So, we might as well blast off today, for fun
I'm waiting on my spaceship to come

No, I'm not taking no for an answer today
Got to be an infinite amount of room up there in the stowaway
Yeah, it's my life I have a say
And I say

Hey God
Why don't You take me home?
Beam me up
I got a ticket to board
Yeah, You know I'm coming home anyway
So, we might as well blast off today, for fun
I'm waiting on my spaceship to come

Waiting on my spaceship to come
I'm waiting on my spaceship to come (come)
Waiting on my spaceship to come
Waiting on my spaceship to come
