

You and Me and Christmas

LeAnn Rimes

Never seen nothin' more beautiful than lighting the tree
When we're standing there together
The smell of cider on the carols playing while we're hanging up wreaths
Yeah together's always better
Santa keep the presents, Mother Nature you can melt all the snow
They never really mattered to me
Anyway as long as you are here and holding me close

I'm counting down the minutes till it's
You and me and Christmas
We're dancing in the magic of
You and me and Christmas
Like angels start to singing
When it's you and me and Christmas
The happiest of endings when it's
You and me and Christmas

Want you to know your love's the greatest miracle that I've ever known
As if you didn't know it
Well honestly I promise that I'll prove it to you when you get home
Yeah boy you better know it
No need to worry wrapping any presents I'll wrap me in a bow
Can't you see I'm losing my mind anticipating
Father time yeah why ya moving so slow

I'm counting down the minutes till it's
You and me and Christmas
We're dancing in the magic of
You and me and Christmas
Like angels start to singing
When it's you and me and Christmas
The happiest of endings when it's
You and me and Christmas

Yeah in the magic of
You and me and Christmas
Like angels start to singing
When it's you and me and Christmas
The happiest of endings when it's
You and me and Christmas

You and me and Christmas
You and me and Christmas
Me and you
You and me and Christmas
