

# Make It Through

Leanna Crawford

Long day, tough night  
Just one of those weeks  
I feel stressed out  
Run down  
Like you wouldn't believe

When I'm staring in the mirror  
I can hear You whisper  
Just breathe, trust me, yeah  
Even on a long day  
Tough night  
Tough year

I promise you  
We're gonna make it through  
I know you're tired of trying  
But don't quit fighting  
'Cause hope is coming soon  
Yeah, I'm telling you  
We're gonna make it through  
Don't let this be the end  
And it's just the beginning  
A mountain is gonna move

We're gonna make it through  
We're gonna make it through

We're gonna make it through the waiting  
The changes  
The hold on for dear life  
The moments that make no sense  
Take me by surprise

'Cause when I'm staring in the mirror  
I can hear You whisper  
Just breathe, trust me  
Yeah, even in the waiting  
The changes  
The heartbreak

I promise you  
We're gonna make it through  
I know you're tired of trying  
But don't quit fighting  
'Cause hope is coming soon  
Yeah, I'm telling you  
We're gonna make it through  
Don't let this be the end  
And it's just the beginning  
A mountain is gonna move

We're gonna make it through  
We're gonna make it through

I know that I know  
That I know that I'm never alone  
You tell me that Your love never fails

And You're never letting me go  
Help me remember  
Your word is forever  
You mean every letter You say  
So, when You say

I promise you  
We're gonna make it through  
I know you're tired of trying  
But don't quit fighting  
'Cause hope is coming soon  
Yeah, I'm telling you  
We're gonna make it through  
Don't let this be the end  
And it's just the beginning  
A mountain is gonna move

We're gonna make it through  
We're gonna make it through
