

Write About It

Leanna Crawford

Ooh, ooh, ooh

Just like the Sun's gotta rise for You
Just like the Star's gotta shine for You
Just like the World's gotta spin for You
I know how they feel, yeah, I feel it too
'Cause I

I love You so much
I had to write about it, write about it
I'm dedicating every line
I love You so much I had to
Write about it, write about it
Every verse and every rhyme

Ooh, ooh, ooh
Yeah, it's all for
You, ooh, ooh
And something feels so right about it

Just like a Flower's gotta bloom for You
Just like a Bee's gotta buzz for You
Just like the Blue Bird's gotta sing for You
All of creation got that thing they do
Me too

I love You so much
I had to write about it, write about it
I'm dedicating every line
I love You so much I had to
Write about it, write about it
Every verse and every rhyme

Like a heart, it's gotta beat
Like these lungs, they gotta breathe
I could write a thousand symphonies
And it would be like life just begun
Telling You what You mean to me

I love You so much
I had to write about it, write about it
I'm dedicating every line
I love You so much I had to
Write about it, write about it
Every verse and every rhyme

Ooh, ooh, ooh
(Every song I sing, I sing for You)
Yeah, it's all for
You (It's all for You)
(Every song I sing, I sing for You)
