

Bowl Of Flies

Leatherface

Mary Whitehouse spouts bout this and that and all the ins and outs
David Ike is right does he need to give his life to prove that he is right
Do you understand what it's like to be a laughing stock in life
Do you understand what it's like or who you are
Eccentric billionaire he doesn't care he'll give it all away
Then there's the mother like the woman in
Butterflies who ties herself up and dies
We won't wait or hesitate to criticise
And never in a million billion years
Will we understand their minds
Do you understand what it's like to give away your life
And do you understand what it's like to be a lost cause
Like a butterfly we've a very short life
Lighted cigarettes will burn out in time
Like a rainforest but not metaphoric
In fact like a piss in the Atlantic
Like a bowl of flies we've a very short life
