

## Dreaming

Leatherface

Now I've walked round here everything is so clear  
And I don't like it much now I won't live in this hutch  
Never upsetting anyone only fish in this pond  
If it spawned a man what's that you've got in your hand  
You were happier dreaming too well I never said I'd marry you  
And I've spent several days dreaming too  
And there was never any doubt about about that we were happy then  
To sleep dreaming when things just came about  
Long things to categorize look to a space between your eyes  
You won't wear white spend time avoiding bright light  
You listen to the house of Roe you hear voices from above  
They beat spawned a man what's that you've got in your hand  
You were happier dreaming too well I never said I'd marry you  
Well I've spent several days dreaming too  
There was never any doubt about about that we were happy then  
To sleep dreaming when things just came about  
[grumbles]  
You were happier dreaming too well I never said I'd marry you  
Well I've spent several days dreaming too  
There was never any doubt about about that we were happy then  
To sleep dreaming when things just came about  
You were happier dreaming too when I never said I'd marry you  
Well I've spent several days dreaming too things just came about
