

## Live For You

Leatherface

Can you say I'm right could you say whatever you like  
Who you really like you'll have my body  
And I won't marry you and I won't give in all to you  
When I live for you.....  
Be fast in your shine your not burning bright  
I want another dance with you  
Well I live four miles from you I want another dance with you  
When I live for you.....  
And I wonder at night I want it every day  
And my wasted mind needs to have them said  
And I can't go away but I won't stand in your way  
When I live for you.....  
I live for you.....
