

## Rabbit Pie Alibi

Leatherface

Discourse like a machine gun I'm hunting rabbits for their tails

Not lying or pretending just counting circles with square eyes

And everything you ever said is everything gone wrong tonight

And everything you ever said is everything gone wrong

Mood lighting won't fix it even rabid dogs have their day

I'm not lying be deceiving I'm hunting rabbits for their tails

And everything you ever said is everything gone wrong tonight

And everything you ever said is everything gone wrong tonight

And everything you ever said is everything gone wrong tonight

And everything you ever said is everything gone wrong tonight

Thing gone wrong tonight thing gone wrong tonight
