

Give me some more whiskey not that Colenmorangie  
Jacobite blended dregs a gypsy's old bed setter  
All of it makes me gag but I think that it's  
The 20/20 I put in to stop the brown bag smelling smelling  
Have you seen your dog it's a lasserapso  
It was on the back seat of that Fiat Uno you stole  
It was an injection though that's alright I suppose  
But it just won't run on lovely red diesel my friend  
Then there's a hole in my head pump up the volume you said  
For the love of Christ you're the boss boss end more like  
And that near death shite do I believe in a bright light  
That red diesel you like  
And sometimes I surprise myself I can stand the metal roof  
I look out of my window  
Someone's drawn tits on my neighbour's back door  
That always makes me smile that artist has got some style  
I think I'll sit here for a while
