

Tools Of Discipline

Leatherwolf

Follow me around every were I go
Lookin at me through the video
There's an eye in the sky, looking down from behind,
But you can't hide

If you got a name; it's required by law
Change it for a number or get nothing at all
You never heard it from me; we'll take a piece of you
What the hell can you do?

You can't cure my aggravation
Control they will this world your in
Hanging it over my head till I wake up dead
Illusion frees the waken
Here they come again
Killing my dreams, I want to scream
Changing my mind, watching me bleed
Killing my dreams, I want to scream
Cover my eyes; wont you lead me to my dreams

Running away till your life's destroyed
Hiding away like your paranoid
Fake a suicide change your disguise but you cant hide
The IRS will stimulate the FBI to terminate
There still lookin for me, on an IOU taking way over due

You can't cure my aggravation
Control they will this world your in
Hanging it over my head till I wake up dead
Illusion frees the waken
Here they come again
Killing my dreams, I want to scream
Changing my mind, watching me bleed
Killing my dreams, I want to scream
Cover my eyes; wont you lead me to my dreams

Killing my dreams
tools of discipline

You can't cure my aggravation
Control they will this world your in
Hanging it over my head till I wake up dead
Illusion frees the waken
Here they come again
Killing my dreams, I want to scream
Changing my mind, watching me bleed
Killing my dreams, I want to scream
Cover my eyes; wont you lead me to my dreams
