

# Can't Block It

Lecrae

Snakes gotta watch em, they gon try and block your blessings  
Keep faith always know God got me  
No you can't block my blessings  
They don't want to see me on top  
I can't let em block my blessings  
Keep hustlin keep pushin don't stop  
You can't let em block your blessings  
If it rain my parade don't stop  
I can't let em block my blessings  
I just dropped the top on the drop  
If they gon watch gon let em  
Snakes gotta watch em, I can't let em block my blessings  
Keep faith always know God got me  
No you can't block my blessings

Came through the block  
Heard somebody got they people  
Said lil L got shot  
I wonder why the world so evil  
Young boy only 15  
Had em laid out so mean  
He was tryna stack that cream  
Stead of tryna ball on the team  
He was tryna ball in the streets  
Y'all know the scene  
Haters tryna box me out  
They tryna lock me out  
No no no  
They tryna bring me down  
I had to change my route  
Gods' hand on me ain't nobody that can stop it  
What he planned for me ain't nobody that can block it  
Came from the bottom now I'm drippin like a faucet  
Tell em game over 8 ball corner pocket

Snakes gotta watch em, they gon try and block your blessings  
Keep faith always know God got me  
No you can't block my blessings  
They don't want to see me on top  
I can't let em block my blessings  
Keep hustlin keep pushin don't stop  
You can't let em block your blessings  
If it rain my parade don't stop  
I can't let em block my blessings  
I just dropped the top on the drop  
If they gon watch gon let em  
Snakes gotta watch em, I can't let em block my blessings  
Keep faith always know God got me  
No you can't block my blessings

Tell mama don't worry bout them people anymore  
I been in the gym and I don't miss my free throws anymore  
I'm tryna take my shot  
They tryna change they plot  
I changed my circle  
She just want them bottoms red, her top to drop, her labels purple yeah  
8:28 out the gate

All things work for my good I'm straight  
Get a little money gotta watch for the snakes  
They gon try and take food off your plate  
Boy this life can be a jungle  
Everybody a Mutombo tryna block a shot  
And trip you tryna make you fumble  
They don't want to see me humble  
Run with pride, pride of lions by my side  
They will eat a man alive  
God told me vengeance is mine  
So I don't even try  
I just wait for His reply, yeah

Snakes gotta watch em, they gon try and block your blessings  
Keep faith always know God got me  
No you can't block my blessings  
They don't want to see me on top  
I can't let em block my blessings  
Keep hustlin keep pushin don't stop  
You can't let em block your blessings  
If it rain my parade don't stop  
I can't let em block my blessings  
I just dropped the top on the drop  
If they gon watch gon let em  
Snakes gotta watch em, I can't let em block my blessings  
Keep faith always know God got me  
No you can't block my blessings
