

Fear Not

Lecrae

Candlelight shines inside the pumpkinhead
Waiting on the borderline
Please don't be afraid, or it's gonna end
B-L-O-O-D-Y

I lie, I panic, my mind wreak havoc
I cry, can't manage, I did my damage
I came, I saw, I killed, I'm savage
My crime so heavy, my sin left baggage
Can't stand it
Liar, cheater, and a killer
Never meant to cause 'em damage
I'm lookin' at me in the mirror
I see myself and start to panic
They don't even recognize me
When they see me comin', all they see is (Fame)
They don't know behind these Cartiers
It's just a little boy full of (Pain)
Push me 'round, put me down
Touch the ground, took me out, yeah
Fingers nice, gated dice
Same twice, crazy I ain't dead
And I should've called James White
Flew into Memphis to hang out with soup
And tell him that all ain't right
But I was afraid
Confession bring you peace, secrets make you weak
The devil like to feast on all your sinful feats
One too many drinks, tell my mama "Peace"
Death deserve my feet, let me rest in peace

Ainda que eu ande pelo vale da sombra da morte
Eu não temerei mal nenhum, porque tu estás comigo
A tua vara e o teu cajado me consolam, bondade e misericórdia certamente me
seguirão todos os dias da minha vida
Candlelight shines inside the pumpkinhead
Waiting on the borderline
Candlelight shines inside the pumpkinhead (Don't be scared, don't be afraid,
don't be scared, don't be afraid)
Waiting on the borderline (Don't be scared, don't be afraid, don't be-)

Don't be afraid of the people, don't be afraid of the evil
They can mistreat us, but they'll never take us from Jesus
He'll never let 'em defeat us, they know that they'll never beat us
God washed away all my evil
Turned me into a believer, you better believe it
Put some more time on my meter, I cannot wait 'til we meet up
They cannot kill us, stop us, or condemn us
They want us livin' like we ain't the winners
They keep on tryna tell us that don't ever help us
'Cause we all a bunch of dirty sinners
It go up on my side, all this weight on my mind
Don't you try and bring up my past, 'cause God erased my timeline (I'll be fine)
Heh, ready for war, I put it all up on the line
Too scared to fight, then go let David kill Goliath
Walk through the valley, but the Lord is by my side

He heard my cry

Hold me down, hold me down, hold me down, hold me down

Hold me down, hold me down, hold me down, hold me down (We ain't scared)

Hold me down, hold me down, hold me down, hold me down (We ain't scared)

Hold me down, hold me down, hold me down, hold me down (We ain't scared)

Hold me down

We ain't scared, we ain't scared
