

H2O

Lecrae

As we proceed
Uh, to, yeah
To give you what you need
Uh, yeah, huh

You outta touch, but you feel the words I've spoken (Let's go!)
Do my morning mediation by the ocean (Woo!)
Spirit flowin' through my whole body, I got motion
Leave a legacy without a statue or a sculpture (Haha!)
Too on ever since I was "two on"
Tried to buy my soul, but they offer look like a coupon
All my people eatin', you know I'ma put my group on (Woo! Woo!)
You want the smoke? Buy a casket and put a suit on
I told ya
You know you killin' it when you start to see the vultures (Ugh!)
Ain't no more shame and honor, we wyle out in the open
They got tarot cards, they got pills, they got potion (Nah!)
All I need is prayer and I'm golden (Let's go!)

Holy water
Only talk about your chain so long before they change your song
I guess it's holy water
That's why we think that rain gon' stop after we cop that watch
But that ain't holy water
Look at the way we drip, like we just fell off a ship (Woo!)
We got 'em thinkin' it's holy water
Audemars on your wrist, but can't spend time with your kids
I pray that they get a holy father
(You know what it is, man! Let's do it!)

Holy Father, our God in Heaven, keep that Kabbalah (Wah!)
Presidential Rollies, I name my watches Obama (Ugh!)
Kamala, commas on commas don't get you honor
And y'all don't rap, y'all nursery rhymin' like llama, llama (Sheesh!)
Satan ain't sloppy, lurkin' in lobbies, lookin' for bodies
Keep it on me case I get caught up in his (Bah!) tsunami (Bah!)
Know they won't stop me
So they watch me like it's a hobby
Got me in the party talkin' to thotties lookin' ungodly
Bodies on bodies
Robberies on robberies
Shawtys on shotties
Shot up the party, hopped in that Maserati, nobody
Saw nobody even though they all witnessed the whole thing
Treachery in our circles, we lord of our own rings, uh (Bing! Bing!)
Maybe it's cinema, actin' like ain't no sin in us
Each of us do what's right in our own eyes at minimum (Uh!)
No benefits if you walk in your own path
We turn away from God and suffer the Lord's wrath
Get some-

Holy water (Get you some holy water! You feel me?)
Only talk about your chain so long before they change your song
I guess it's holy water (H₂O)
That's why we think that rain gon' stop after we cop that watch
But that ain't holy water (Yeah!)
Look at the way we drip like we just fell off a ship

We got 'em thinkin' it's holy water (On and on and on and on!)
Audemars on your wrist, but can't spend time with your kids
I pray that they get a holy father (Father, father, father, father)
