

# Holy Water

Lecrae

I'm dripping holy water, I got that holy water  
I'm dripping holy water, I got that holy water  
Do the Phillipe Patek (protect) me if it's dripping holy water  
If she with me, respect it, she dripping holy water  
Holy water, I got that holy water  
I'm dripping holy water, I got that holy water  
Do the Phillipe Patek (protect) me if it's dripping holy water  
If she with me, respect it, she dripping holy water

Yeah...

Sprinkle me with that water  
I don't need a priest with a collar  
Already been to the altar  
Turn that down to a dollar  
They say he forgot that truth, now all he talk is money  
I say truth is that my people in the hood and hungry  
You don't really know my calling  
You don't really want these problems  
I stay fresh to death, but boy my whole team gotta be balling  
Holy water steady dripping through  
Look at how we brought the city through  
116 and we been in the kitchen cooking up a chicken you can listen to  
People wonder how we did it  
People wonder how we get it  
I tell em', don't chase the money, chase the vision, put your people into position  
Turn that water into wine  
Watch me grind, watch me shine  
Grandma told me "God is good", I told Grandma "All the time"

I'm dripping holy water, I got that holy water  
I'm dripping holy water, I got that holy water  
Do the Phillipe Patek (protect) me if it's dripping holy water  
If she with me, respect it, she dripping holy water  
Holy water, I got that holy water  
I'm dripping holy water, I got that holy water  
Do the Phillipe Patek (protect) me if it's dripping holy water  
If she with me, respect it, she dripping holy water

Boy I swear I came from nothin seen a lot of people fall  
Took a lot of L's called em lessons never took a loss  
When they ask me how, I say "Wow must not know my God"  
Holy water drippin, One One Sixin boy I'm with the mob yeah yeah  
Holy water holy water dip me in drench me in it I'm drippin  
They told me the system would get me  
I can't lie the devil done tempt me  
But now I'm covered and I'm clean  
I'm still resisting all the schemes  
You see me invest in my team  
They killed the dreamer not the dream  
All around the world  
London to Dubai  
Yes I fly, let them wonder why  
I just trust the guide  
Close my eyes  
I could do this blind  
I don't walk by sight

Things just work out for me  
I don't do it well I do it right

I'm dripping holy water, I got that holy water  
I'm dripping holy water, I got that holy water  
Do the Phillipe Patek (protect) me if it's dripping holy water  
If she with me, respect it, she dripping holy water  
Holy water, I got that holy water  
I'm dripping holy water, I got that holy water  
Do the Phillipe Patek (protect) me if it's dripping holy water  
If she with me, respect it, she dripping holy water
