

# I Love You

Lecrae

Yeah, sometimes we get so addicted to self that, you don't realize you  
u hurting other people, specially the people you care the most about.  
Girl I love ya cross my heart and I hope to live to make you smile,  
Cause I don't deserve you. So for all the times you held me down,  
Listen to me now, ÿ I love you girl.  
Ya know I had to do a love song  
To let the whole world know bout my love jones,  
Love sticks is what I told the docter,  
We could be more like Sho Baraka,  
But we all moors and we been that  
And when I said I do, I meant that  
It's trip that, you let me lead you

Cause I'm a mess and sometimes I need you  
And I need you, to understand  
That I'm dying everything tryin to be a better man,  
I put that on my momma,  
I love the way you play your part through my drama  
Long nights, long flights, trips outta town  
Ya keep my head up when it was hanging down  
Down like four flats on aÿ lack  
I let you down and you still keep coming back  
Girl I love ya cross my heart and I hope to live to make you smile,  
Cause I don't deserve you. So for all the times you held me down,  
Listen to me now, I love you girl.  
Out hereÿ trying to save the world,  
Can't forget about my baby girl  
And baby girl, you so tight it's true to me sometimes I wonder why yo  
u fool with me  
Cause foolishly I'm prone to hurt you,  
Call you grace cause I don't deserve you  
I recall cold nights, no lights, low dough nights  
You ain't fussin you was there the whole night sayin it's alright,  
So faithful, Far as beef yeah we done had a plateful  
But we ate it up and we made it up  
Cause our view of the Lord wasn't great enough  
No divorce cause what God brought together,  
We will never tear apart, gonna fight and never let up.  
And when I get up I'm back down on my knees,  
Thank Godÿ my rib's the best part of me.  
Girl I love ya cross my heart and I hope to live to make you smile,  
Cause I don't deserve you. So for all the times you held me down,  
Listen to me now, ÿ I love you girl.  
All the fellas out thereÿ in the world  
If your lady love God and you gotta good girl  
Stay with her, pray with her, take her on a date  
Tell her you appreciate...  
How she love me, how she cares  
And how shes every woman every where,  
And baby I'm sorry for all the days I let you down  
But I gotÿ something to say, I love you girl
