

LIFE

Lecrae

What is life?
I been wondering
What is my life?
When my cousin went down, they gave him life
I can't talk right now, I'm livin' my life
I'm livin' my life

14 begging for change on street corners
Tryna' catch that city bus, hustle up three quarters
Couple hours made 20 dollars
Back of that bus smellin' sour
Somebody ain't take a shower, but nonetheless
I get off, walking down Colfax to get my music
Was too infatuated with rapping to be a shooter
Momma linked me with this producer who had steam
My rap dream's now in the hands of a crack fiend (My life)
Hadn't made much of it was still growin' (My life)
Optimistic, excited to keep going
Then I died

Today we bury the old self
The one driven by pain and performance
That version has died
Wake up, wake up, wake up (uh, yeah, yeah, yeah, yeah, eh)
In his place stands a new creation, alive in Christ walking in faith

Killin' off what was old
Brand new life, I rose
Died at the foot of the cross
Woke up right next to the throne
Look, if I cut this leash it might go bad for ya
I got some angels and saints in the heavens who might call my Dad on
ya
Call collect if you're collecting charges
Pardon me but I can get you pardoned
Part of me is partial
But He probably part the sea with a stick when He come through
I gave my life like an offering
I gave my life at the alter
Altered my ego from tryna be migos with evil they wanted to off me
Off of me and on to Him
I been off and on again
All my kids was born in sin
Jesus make 'em born again
Some us related by birth
Some us related by blood
If you know the difference then you go the distance
'Cause you know the meaning of love (Love)
